Dear Certification Bodies,

This is to inform you that the facility for deletion of lots has been restricted to one day for rectifying the wrong entries. The reason for this provision made in the Tracenet is because it was observed that the lots created by the operators were being deleted at any point of time which created a major mismatch of production data in the Tracenet.

Keeping in view the interest of the operators and also to maintain the smooth functioning of the Tracenet, this provision for deletion of lots is being provided to the Operator for deletion on the same day. The operators may be informed accordingly.
